

Aussie performer imported

By **Kathy Graham**

A Cambridge accountancy firm says the purchase of Australasian business performance franchise 10X Limited will complement the work its staff already do with clients.

GW Scott & Associates Limited has secured the 10X Limited franchise for the Hamilton area. Business development manager Susan O'Carroll said the franchise would be another arm of the accountancy business.

10X Limited sets up coaching clubs for small and large businesses. Principal Graham Scott says he has seen many business owners sacrifice too much for their business, "sometimes to the detriment of their personal lives". He said it was about helping clients "achieve the growth and lifestyle they've always dreamed of".

Ms O'Carroll said: "What we are looking at is what are the drivers in people's businesses for growth and profitability, issues in terms of time management and what do they need to work on to get their business where they want to go."
